## PROFESSIONAL SUMMARY

---

Highly skilled and results-oriented Frontend Web Developer with over 3 years of professional experience specializing in React.js and Next.js ecosystems. Expert in translating complex Figma and Adobe XD designs into pixel-perfect, accessible, and high-performance web applications. Proven track record managing full product lifecycles for 20+ commercial templates on ThemeForest, achieving 99.8% design accuracy and consistently high Google Lighthouse scores. Adept at API integration, authentication validation, and advanced UI animations using GSAP and Framer Motion. Seeking a stable, full-time remote role to leverage strong frontend development skills and deliver exceptional user experiences.

## PROFESSIONAL EXPERIENCE

---

### SpeedDigit Software Solution | Frontend Developer (Product Focus)

2023 – 2025

- Led end-to-end development and commercial launch of 20+ successful ThemeForest templates, ensuring strict marketplace compliance and market readiness.
- Achieved 99.8% pixel-perfect fidelity converting Figma/XD and HTML designs into performant React/Next.js component-based applications.
- Engineered robust application logic for consuming mock RESTful APIs, establishing dynamic data handling and validation patterns.
- Managed full ThemeForest submission process including file preparation and comprehensive user documentation.
- Implemented complex, high-performance UI animations with GSAP and Framer Motion, enhancing user engagement.
- Optimized performance using Next.js SSR/SSG features, consistently achieving top-tier Google Lighthouse scores.
- Developed and maintained a reusable component library across 20+ templates, reducing development time by 30%.
- Ensured cross-browser compatibility and compliance with modern web standards using TypeScript and scheduled dependency updates.
- Expanded portfolio by developing and publishing 7 items for 3 external ThemeForest authors, demonstrating collaboration and versatility.
- Consulted and managed full submission processes for two new author accounts, achieving 100% approval rate on initial submissions.
- Delivered 20+ high-fidelity contract web applications and templates within the year, meeting aggressive deadlines.

# Self-Employed / Independent Contractor | Frontend UI/UX Specialist & ThemeForest Consultant

2025 – Present

- Provide expert frontend development and consulting services specializing in React.js and Next.js templates for ThemeForest.
- Assist clients with design-to-code conversion, marketplace submission, and UI/UX enhancements.

## SELECTED PROJECTS

---

### Digiboard - Multipurpose Admin Dashboard Template

- Technologies: Next.js, TypeScript, Context API, CSS
- Developed a versatile admin dashboard template with efficient state management and intuitive UI.

### Geroz – Creative Personal Portfolio React Next.js Template

- Technologies: Next.js, TypeScript, Context API, SCSS, GSAP
- Built a high-performance portfolio template featuring complex animations for enhanced user experience.

### Eduleb - Education & LMS React Next.js Template

- Technologies: Next.js, Jamstack, Sanity CMS, Redux Toolkit, Framer Motion, CSS
- Created a scalable LMS template with headless CMS integration and smooth UI interactions.

### Zestify - Fastfood | Juicebar | Cafe React Template

- Technologies: React.js, Tailwind CSS, TypeScript, Context API
- Developed a modern, multi-use food service template with fast styling and stable codebase.

### SEOZ - SEO & Digital Marketing Agency Template

- Technologies: React.js, Next.js, Bootstrap 5, SCSS, Context API
- Maintained marketplace-approved React and Next.js versions with responsive design and efficient state management.

### EZ Condos (Co-Owner & Admin Portals)

- Technologies: HTML, SCSS, Vanilla JavaScript
- Delivered dual-user interface portals from complex Figma wireframes with pixel-perfect static templates.
